MEMORANDUM FOR: Project Intelligence Requirements Officer

SUBJECT : Exploitation of Intelligence - Project AQUATONE

I have read the attachment with care and have made a few editorial suggestions which are marked in pencil in the text. Would you look this over once again to make sure it is up to date and then have copies made in the numbers you think appropriate for the IAC. I believe it should now be dated 1 June. I am not entirely sure whether or when we will use it but I believe it may be desirable to take this up at the IAC meeting on 12 June if one is held on that date.
